CONTENTS • INHALT • CONTENIDO • SOMMAIRE • SOMMARIO

Remove the earcup cushions

- Gently pull the cushion away from the earcup until all tabs release.
- Repeat for the other cushion.

Remove the scrims

- Grab the scrim at the top edge and gently peel it away.
CAUTION: Do not press down on or remove any other components inside the earcup as this could damage the headphones.
- Repeat for the other scrim.

Insert the new scrims

- On the back of the new **R** scrim, remove the paper backing from the two tape strips.
- Place the scrim in the right earcup in the same position as the original.
- Gently press down over the tape strips.
CAUTION: Do not press on the center of the scrim as this could damage the headphones.
- Repeat for the left scrim.

Attach the new earcup cushions

- Press the edge of the new cushion against the edge of the earcup until you hear and feel a snap.
- Continue pressing around the edge of the earcup until all tabs snap into place.
NOTE: For proper audio performance, all tabs must be secure.
- Repeat for the other cushion.
